MANY CANDIDATES FOR OFFICE IN FEDERAL EMPLOYES' UNION

Announcement was made last night by the Federal Employes' Union of those who have been nominated for officers to serve for the next year, which commences in November. The elections will be held October 13.

Ballot boxes will be placed at the entrance to the American Federation of Labor building, 9th street and New York avenue, and in the office of the organization in the same building. The ballots will be distributed Tuesday.

It is indicated after the name of most of the candidates whether or not he or she has consented to serve. Where nothing appears after the name it indicates, according to the announcement, that the parties have not been heard from and they are considered candidates.

The list follows:

BREMEN CAUGHT IN NETS.

Circles in Washington. Another report of the capture of the German merchant submarine Bremen reached official circles here yesterday from unofficial, but usually reliable sources. According to this account which is given credence by some high military officers, the Bremen was seen three weeks ago at the big British aval station at Rosyth, on the east coast of Scotland, having been captured in one of the steel nets recently

More than seventy submarines are said to have been taken or destroyed by these nets.

In spite of persistent reports of the Bremen's capture, her agents in this country apparently still are confident that she is safe on the high seas and will appear at New London, Conn., in due time.

CONFIRM VILLISTAS' DEFEAT.

Reports Received by State Department Tell of Cusihuirachie Fight. State Department reports of the reent fighting between Carransa solliers and Villa bandits at Cusihuirachic in the state of Chihuahua, apparently confirmed the defeat of the outlaws. Secretary Lansing said yesterday that department border agents, upon information secured from natives, reinformation secured from natives, report that 250 Villa bandris attacked a force of 150 Carranza solders and were driven off. A second engagement followed, in which the outlaws retreated. No estimate of casualties was given in the department's reports. One Mexican asserted that Villa himself was present during the engagement, but there was no other confirmation of his presence, and officials here did not credit the statement.
